

Lupin Ranch

2023 Reserve Cabernet Sauvignon

NAPA VALLEY

Vineyards

This Reserve Cabernet Sauvignon brings together fruit from carefully selected vineyards across Napa Valley. Each vineyard contributes its own expression of Napa terroir, from the concentration and structure of hillside fruit to the elegance, depth, and supple texture found in the valley's warmer, well-drained sites. Together, these varied sources create a layered and complex Cabernet Sauvignon that captures the breadth and character of Napa Valley in a single, harmonious bottling.

Varietal Composition & Elevage

100% Cabernet Sauvignon aged in 75% new French Oak for 18 months

Winemaking

The hand-picked fruit was gently de-stemmed and transferred to stainless steel open-top fermentation tanks. Following a four-day cold soak, the must was inoculated and the tanks were gradually warmed to encourage optimal extraction and development. During fermentation, the wine was pumped over and punched down three times daily, then twice daily as fermentation progressed. The wine remained on the skins for 21 days before being pressed at dryness. The final blend was carefully assembled from our favorite barrels from each individual vineyard lot, bringing together the unique character and expression of each site.

Tasting Notes

The 2023 Reserve Napa Valley Cabernet Sauvignon opens with expressive aromas of red cherry, raspberry, wild strawberry, and red currant all layered with subtle notes of violet, cedar, and warm spice. The palate is rich and polished yet distinctly red-fruited, with vibrant acidity and fine-grained tannins. This concentrated and beautifully balanced wine carries its fruit through a long and refined finish. Delicious now, but cellaring will be rewarded

Technical Data

pH: 3.74 TA: 4.6 g/L Alc: 14.9%
